

# Entrepreneurship Curricula

## Entrepreneurship concepts

**Concept:** definition of entrepreneurs

**Time:** 20 minutes

**Materials:** pieces of paper (cut in half or quarters), pencils, scissors, small paper bags

**Goal:** to introduce the entrepreneurial concepts

After the participants have had the chance to get to know the entrepreneurial concepts you can explore the subject more. Use the concept they chose by playing a matching entrepreneurial game. Ask them to think of a time when they used the concept in their lives and ask them to write some sentences about their experiences - without using the name of the concept. The group will be divided into teams of 4 or 5 participants. Each team's writings will be placed in a bag and give it to another team. Each team must guess which entrepreneurial concept applies to each situation and write the name of the concept on the paper. Then the groups will be reunited and one participant from each group will present their results. Every writer / writer tells if the guess of the team is correct or not.
